

INDEX TO VOLUME XVIII

A

- Absorption of drugs from the rectum (J. W. A. Mackenzie), 28
 ALLEN, F. M. B.: Neonatal mortality in a maternity hospital, 155
 ALLIBONE, E. C. (and H. S. Baar): Fibrinogen deficiency as a factor in haemorrhagic disease, 146
 Anaemias of infancy and early childhood, Studies in:
 Part XII: The regeneration rate of haemoglobin and the life span of erythrocytes in normal and pathological conditions (H. S. Baar and T. W. Lloyd), 1
 Part XIII: Experiments on blood regeneration and their significance for the life span of erythrocytes (H. S. Baar), 65
 Part XIV: The fate of transfused erythrocytes (H. S. Baar and T. W. Lloyd), 124
 Aorta, Coarctation of, with cerebral aneurysm (J. N. O'Reilly and O. W. Chapman), 109

B

- BAAR, H. S.: Studies in the anaemias of infancy and early childhood. Part XIII: Experiments on blood regeneration and their significance for the life span of erythrocytes, 65
 BAAR, H. S. (and E. C. Allibone): Fibrinogen deficiency as a factor in haemorrhagic disease, 146
 BAAR, H. S. (and T. W. Lloyd): Studies in the anaemias of infancy and early childhood. Part XII: The regeneration rate of haemoglobin and the life span of erythrocytes in normal and pathological conditions, 1
 Part XIV: The fate of transfused erythrocytes, 124
 BEDSON, S. P.: Some recent virus work and its practical import, 113
 Biliary obstruction in icterus gravis neonatorum (R. C. Lightwood), 156
 Blood regeneration, experiments on, and their significance for the life span of erythrocytes (H. S. Baar), 65
 BRAID, Frances (and A. V. Neale, Ethel Cassie and Mila Pierce): Breast-feeding in relation to female labour as it particularly affects Birmingham, 59
 BRAILSFORD, James F.: An unusual osseous dys-trophy, 98
 Breast-feeding in relation to female labour as it particularly affects Birmingham (A. V. Neale, Ethel Cassie, Frances Braid and Mila Pierce). Report of British Paediatric Association Subcommittee, 59
 BRIEGER, E. M.: Children in a tuberculosis colony, 178
 British Paediatric Association, Proceedings of an Extraordinary General Meeting, 53
 Reports of Sub-committees, 54. Neonatal mortality (C. McNeil, N. B. Capon, W. R. F. Collis, S. Graham and A. A. Moncrieff), 54; Standard of milk supplied to children, (A. G. Watkins), 56; War-time nurseries (K. D. Wilkinson), 56; Dosage of vitamin D, (W. Sheldon, C. F. Harris, N. Morris and Helen Mackay), 58; Breast-feeding in relation to female labour as it particularly affects Birmingham (A. V. Neale, Ethel Cassie, Frances Braid and Mila Pierce), 59
 Proceedings of the Fifteenth Annual General Meeting, 154; Fat boy, fate of (P. Williams), 155; Coeliac disease, Some observations on the treatment of with parenteral B complex and crude liver (Eleanor Peck), 155; Neonatal mortality in a maternity hospital (F. M. B. Allen), 155; Haemolytic disease of the newborn, erythroblastosis foetalis—its treatment with Rhesus-negative blood (Janet Gimson), 155; Icterus gravis neonatorum, Biliary obstruction in (R. C. Lightwood), 156; Tuberculous infection in a children's hospital, incidence of (G. B. Fleming), 156; Mumps, the complications of (R. E. Smith), 156; Infant behaviour during routine clinical examination, observations of (D. W. Winnicott), 156
 Report on the early diagnosis of tuberculosis in childhood (W. Sheldon, S. Graham, W. Gaisford and R. Lightwood), 157
 Arrangements for newly born babies in maternity hospitals (C. McNeil, N. B. Capon, W. R. F. Collis, S. Graham and A. A. Moncrieff), 159
 BURNETT, C. W. F. (and J. B. Hartley): Spina bifida and its associated skull defects, 173

C

- CAPON, N. B. (and C. McNeil, W. R. F. Collis, S. Graham and A. A. Moncrieff): Neonatal mortality, 54
 CAPON, N. B. (and C. McNeil, W. R. F. Collis, S. Graham and A. A. Moncrieff): Arrangements for newly born babies in maternity hospitals, 159
 Carcinoma, Primary, of the pancreas in an infant aged seven months (Beryl D. Corner), 106
 Carotinaemia in a suckling (M. L. Thomson), 112
 CASSIE, Ethel (and A. V. Neale, Frances Braid and Mila Pierce): Breast-feeding in relation to female labour as it particularly affects Birmingham, 59
 CHAPMAN, O. W. (and J. N. O'Reilly): Coarctation of the aorta with cerebral aneurysm, 109
 Children in a tuberculosis colony (E. M. Brieger), 178
 Coarctation of the aorta with cerebral aneurysm (J. N. O'Reilly and O. W. Chapman), 109
 Coeliac disease, some observations on the treatment of, with parenteral B complex and crude liver (Eleanor Peck), 155
 COLLIS, W. R. F. (and C. McNeil, N. B. Capon, S. Graham and A. A. Moncrieff): Neonatal mortality, 54
 COLLIS, W. R. F. (and C. McNeil, N. B. Capon, S. Graham and A. A. Moncrieff): Arrangements for newly born babies in maternity hospitals, 159
 CORNER, Beryl D.: Primary carcinoma of the pancreas in an infant aged seven months, 106
 COUPER, E. C. R.: Rheumatic infection in childhood, 88
 Cysts, intrathoracic, of intestinal and bronchial structure (W. G. Wyllie and R. S. Pilcher), 34

E

- Enema, The nutrient (J. W. A. Mackenzie), 22
 Erythroblastosis foetalis, (haemolytic disease of the newborn), its treatment with Rhesus-negative blood (Janet Gimson), 155
 Erythrocytes, the fate of transfused (H. S. Baar and T. W. Lloyd), 124
 Erythrocytes, transfused, survival of, in haemolytic disease of the newborn (P. L. Mollison), 161

F

- Fat boy, fate of the (P. Williams), 155
 Fibrinogen deficiency as a factor in haemorrhagic disease (E. C. Allibone and H. S. Baar), 146
 FIELD, C. Elaine: Spontaneous pneumothorax, massive collapse and subcutaneous emphysema complicating asthma, 197
 FINCH, Ethel (and Evelyn M. Hickmans and Eva Tonks): Plasma protein values in infants, 96
 FINDLAY, L. (and F. H. Kemp): Osteomyelitis of the spine following lumbar puncture, 102
 FLEMING, G. B.: The incidence of tuberculous infection in a children's hospital, 156

G

- GIMSON, Janet: Haemolytic disease of the newborn, (erythroblastosis foetalis), its treatment with Rhesus-negative blood, 155
 GRAHAM, S. (and C. McNeil, N. B. Capon, W. R. F. Collis and A. A. Moncrieff): Neonatal mortality, 54
 GRAHAM, S. (and W. Sheldon and R. Lightwood): Report on the early diagnosis of tuberculosis in childhood, 157
 GRAHAM, S. (and C. McNeil, N. B. Capon, W. R. F. Collis and A. A. Moncrieff): Arrangements for newly born babies in maternity hospitals, 159
 GUTTMANN, E. (and H. Horder): Head injuries in children and their after-effects, 139

H

- Haemoglobin, the regeneration rate of, and the life span of erythrocytes in normal and pathological conditions (H. S. Baar and T. W. Lloyd), 1
 Haemolytic disease of the newborn (erythroblastosis foetalis), its treatment with Rhesus-negative blood (Janet Gimson), 155
 Haemolytic disease of the newborn, the survival of transfused erythrocytes in (P. L. Mollison), 161
 Haemorrhagic disease, fibrinogen deficiency as a factor in (E. C. Allibone and H. S. Baar), 146
 HARRIS, C. F. (and W. Sheldon, N. Morris and Helen Mackay): The dosage of vitamin D, 58

- HARTLEY, J. B. (and C. W. F. Burnett): Spina bifida and its associated skull defects, 173
 Head injuries in children and their after-effects (E. Guttmann and H. Horder), 139
 Heart block, congenital complete (J. Thomson), 190
 HENDERSON, J. L. (and Agnes R. MacGregor): Intestinal thrush, 186
 HERBERT, Freda K.: A case of juvenile xanthomatosis, 41
 HICKMANS, Evelyn M. (and Ethel Finch and Eva Tonks): Plasma protein values in infants, 96
 HORAN, Margaret: Transection of the spinal cord due to injury at birth, 188
 HORDER, H. (and E. Guttmann): Head injuries in children and their after-effects, 139

I

- Icterus gravis neonatorum, biliary obstruction in (R. C. Lightwood), 156
 Infant behaviour during routine clinical examination, observations of (D. W. Winnicott), 156
 Intestinal thrush (Agnes R. MacGregor and J. L. Henderson), 186
 Intrathoracic cysts of intestinal and bronchial structure (W. G. Wyllie and R. S. Pilcher), 34

J

- Juvenile xanthomatosis, case of (Freda K. Herbert), 41

K

- KEMP, F. H. (and L. Findlay): Osteomyelitis of the spine following lumbar puncture, 102
 KENNERSTEIN, M. (and E. Press): Additional manifestation of sulphathiazole toxicity. Non-calculous renal insufficiency following the use of sulphathiazole, 50

L

- LIGHTWOOD, R. C.: Biliary obstruction in icterus gravis neonatorum, 156
 LIGHTWOOD, R. (and W. Sheldon and S. Graham): Reports on the early diagnosis of tuberculosis in childhood, 157
 LLOYD, T. W. (and H. S. Baar): Studies in the anaemias of infancy and early childhood. Part XII: The regeneration rate of haemoglobin and the life span of erythrocytes in normal and pathological conditions, 1

M

- MACGREGOR, Agnes R. (and J. L. Henderson): Intestinal thrush, 186
 MACKAY, Helen (and W. Sheldon, C. F. Harris and N. Morris): The dosage of vitamin D, 58
 MACKENZIE, J. W. A.: The nutrient enema, 22
 MACKENZIE, J. W. A.: Absorption of drugs from the rectum, 28
 McNEIL, C. (and N. B. Capon, W. R. F. Collis, S. Graham and A. A. Moncrieff): Neonatal mortality, 54
 McNEIL, C. (and N. B. Capon, W. R. F. Collis, S. Graham and A. A. Moncrieff): Arrangements for newly born babies in maternity hospitals, 159
 Milk, the standard of, supplied to children (A. G. Watkins). Report of British Paediatric Association Sub-committee, 56
 MOLLISON, P. L.: The survival of transfused erythrocytes in haemolytic disease of the newborn, 161
 MONCRIEFF, A. A. (and C. McNeil, N. B. Capon, W. R. F. Collis and S. Graham): Neonatal mortality, 54
 MONCRIEFF, A. A. (and C. McNeil, N. B. Capon, W. R. F. Collis and S. Graham): Arrangements for newly born babies in maternity hospitals, 159
 MORRIS, M. (and W. Sheldon, C. F. Harris and Helen Mackay): The dosage of vitamin D, 58
 Mumps, the complications of (R. E. Smith), 156

N

- NEALE, A. V. (and Ethel Cassie, Frances Braid and Mila Pierce): Breast-feeding in relation to female labour as it particularly affects Birmingham, 59
 Neonatal mortality (C. McNeil, N. B. Capon, W. R. F. Collis, S. Graham and A. A. Moncrieff). Report of British Paediatric Association Sub-committee, 54
 Neonatal mortality in a maternity hospital (F. M. B. Allen), 155
 Newly born babies in maternity hospitals, arrangements for (C. McNeil, N. B. Capon, W. R. F. Collis, S. Graham and A. A. Moncrieff). British Paediatric Association Report, 159
 Nurseries, War-time (K. D. Wilkinson). Report of British Paediatric Association Sub-committee, 56
 Nutrient enema, the (J. W. A. Mackenzie), 22

O

- O'REILLY, J. N. (and O. W. Chapman): Coarctation of the aorta with cerebral aneurysm, 109
 Osseous dystrophy, an unusual (J. F. Brailsford), 98
 Osteomyelitis of the spine following lumbar puncture (L. Findlay and F. H. Kemp), 102

P

- PECK, Eleanor: Some observations on the treatment of coeliac disease with parenteral B complex and crude liver, 155
 PIERCE, Mila (and A. V. Neale, Ethel Cassie and Frances Braid): Breast-feeding in relation to female labour as it particularly affects Birmingham, 59
 PILCHER, R. S. (and W. G. Wyllie): Intrathoracic cysts of intestinal and bronchial structure, 34
 Plasma protein values in infants (Evelyn M. Hickmans, Ethel Finch and Eva Tonks), 96
 Pneumothorax, spontaneous, massive collapse and subcutaneous emphysema complicating asthma (C. Elaine Field), 197
 PRESS, E. (and M. Kennerstein): Additional manifestation of sulphathiazole toxicity. Non-calculous renal insufficiency following the use of sulphathiazole, 50
 Primary carcinoma of the pancreas in an infant aged seven months (Beryl D. Corner), 106

R

- Rectum, absorption of drugs from the (J. W. A. Mackenzie), 28
 Renal insufficiency, non-calculous, following the use of sulphathiazole. Additional manifestation of sulphathiazole toxicity (E. Press and M. Kennerstein), 50
 Renal rickets, the healing of (W. Sheldon), 194
 Rheumatic infection in childhood (E. C. R. Couper), 88

S

- SHELDON, W.: The healing of renal rickets, 194
 SHELDON, W. (and C. F. Harris, N. Morris and Helen Mackay): The dosage of vitamin D, 58
 SHELDON, W. (and S. Graham, W. Gaisford and R. Lightwood): Report on the early diagnosis of tuberculosis in childhood, 157
 SMITH, R. E.: The complications of mumps, 156
 Spina bifida and its associated skull defects (J. B. Hartley and C. W. F. Burnett), 173
 Spinal cord, transection of, due to injury at birth (Margaret Horan), 188
 Still, George Frederic, Memorial Lecture: Some recent virus work and its practical import (S. P. Bedson), 113
 Sulphathiazole toxicity, additional manifestation of. Non-calculous renal insufficiency following the use of sulphathiazole (E. Press and M. Kennerstein), 50

T

- THOMSON, J.: Congenital complete heart block, 190
 THOMSON, M. L.: Carotinaemia in an infant, 112
 Thrush, intestinal (Agnes R. MacGregor and J. L. Henderson), 186
 TONKS, Eva (and Evelyn M. Hickmans and Ethel Finch): Plasma protein values in infants, 96
 Tuberculosis colony, children in a (E. M. Brieger), 178
 Tuberculosis in childhood, early diagnosis of. British Paediatric Association Report (W. Sheldon, S. Graham, W. Gaisford and R. Lightwood), 157
 Tuberculosis infection in a children's hospital, the incidence of (G. B. Fleming), 156

V

- Virus work and its practical import, Some recent (the first George Frederic Still Memorial Lecture) (S. P. Bedson), 113
 Vitamin D, the dosage of (W. Sheldon, C. F. Harris, N. Morris and Helen Mackay). Report of British Paediatric Sub-committee, 58

W

- WATKINS, A. G.: The standard of milk supplied to children, 56
 WILKINSON, K. D.: War-time nurseries, 56
 WILLIAMS, P.: The fate of the fat boy, 155
 WINNICOTT, D. W.: Observations of infant behaviour during routine clinical examination, 156
 WYLLIE, W. G. (and R. S. Pilcher): Intrathoracic cysts of intestinal and bronchial structure, 34

X

- Xanthomatosis, a case of juvenile (Freda K. Herbert), 41
